Summary

Born in **1998**. Been hard at work since **2019**.
I develop mobile apps based on React Native over the
years (I also use Swift and Kotlin in the native modules sometimes but that's pretty small
in project).
My passion lies in crafting visually stunning and minimalist UI. I don't just see UI design as
a task, it brings me joy in my daily work.

Experience

ABC Technology JSC
Mobile Leader   04/2022 - 07/2022

I've stepped into a new role at a company with diverse projects. As a team lead, I
manage a four members team overseeing all company projects.
- Evaluated team performance and provided constructive feedback.
- Led, supported, and reviewed code for team members, fostering a culture of
  collaboration and excellence.
- Conducted interviews to expand the team, ensuring on-time delivery of product
  schedules.
- Participate in the development of the application's UI.

Proposing appropriate technology solutions for each specific project.

Tech Stack: React Native, NextJS, Hasura Engine, Apollo Client, GraphQL, SocketIO, PM2,
Mediapipe.

Pety JSC
Mobile Developer   06/2020 - 04/2022

This app unites pet lovers through social networking, facilitating bookings, connections,
shopping, and shared pet adoration worldwide. As a software engineer and UI designer, I
contribute to its creation.
- Provide constructive feedback.
- Build most of the app's features.
- Participate in the development of the application's UI.
- Ensures compatibility with most mobile devices and delivers high-quality results.

Tech Stack: React Native, Hasura Engine, Apollo Client, GraphQL, WooCommerce REST
API.

TTS JSC
Mobile Developer   05/2019 - 06/2020

TTS is an e-commerce platform for wholesalers in Vietnam. I take on the role of primary
developer in mobile app development for buyer-side. Besides, I am also a user interface
designer. I spend most of my time using React Native during app development.
This is what the app looked like when I was working here: https://www.behance.net/
gallery/98056431/TTS-New-Version

Tech Stack: React Native, Redux Thunk.
